Dear Mr. Cherry:

Please accept this response to the NOPF issued January 7, 2009, for the above-referenced facility. Pursuant to the NOPF Response Instructions, this document addresses the one finding noted at that time. Please note below:

1. Failed to store Universal Waste Lamps in a closed container in violation of 40 CFR 273.14(d)(1).
 - Immediately upon being made aware of the above violation, the facility used an available lid to close the container. Signage has been posted in the area to inform employees to keep containers covered. In addition, regular inspections will confirm compliance with this requirement.

Should you have any questions regarding these documents, please do not hesitate to contact this office.

Sincerely,

A handwritten signature in cursive script that reads 'Gary Erickson'.
